Completed 18 modules in business management, business finance and statistical and mathematical methods.

City of Bristol College Green 2019 -2020

GCSE in English and Math grade 5-7

Hobbies & Interests

- Warhammer – I enjoy both 40k and Age of Sigmar. This includes Models and Video games. It is a franchise I love. My favourite games from the franchise are the Dawn of War series, and Total War: War Hammer series and I play Dark Templar Space Marines in table top.
- History & Mythology – I love learning about the past, whether it's Wars, culture, ancient or recent. I have a soft spot for mythology. I love fantasy/unrealistic scenarios, so the idea of ancient gods/powerful weapons intrigues me greatly.
- Gaming – I play a variety of games, but my favourites are Star Craft, Age of Empires and Minecraft. Although they cover a variety of genres, I greatly enjoy Strategy games, needing to adapt as the game progresses keeps me engaged and wanting to continue playing.
- Technology – I enjoy building computers, although I don't do so often. And learning about advancements in technology, whether it be robotics, AR or common hardware like CPU/GPUs, I find enjoyment in knowing my subject is constantly evolving.
